Norristown, PA 19401

SECRETARY'S OFFICE

SEP 8 2016

DEPARTMENT OF
ENVIRONMENTAL PROTECTION

Dear Mr. Servidio:

Re: Sunoco Logistics, Inc. Pennsylvania Pipeline Project (Mariner East II) chapter 102 and 105 permit applications

We write to request the scheduling of additional public hearings, and an extension of the public comment period for the technical review of all chapter 102 and 105 permit applications submitted by Sunoco Logistics, Inc. for the Pennsylvania Pipeline Project (commonly referred to as Mariner East II).

We understand that a public hearing was held on Wednesday, August 10, 2016 at West Chester University, but believe that just one public hearing is inadequate for the entire southeast region. There are hundreds of directly impacted landowners in the region, as well as many HOA communities and other interested members of the public who would like to participate in the public hearing process. The extension of public comment, from 60 days to 90 days *after the date of the last public hearing* will also better allow interested stakeholders time to sufficiently understand the proposed project and submit comments.

As Commissioners, we place tremendous importance on providing pipeline information to our residents, and as such, have established the Pipeline Information Center (PIC), an online resource that provides residents with a central location where they can find information on all aspects of pipeline issues. We ask that you seriously consider our request for additional public hearings and an extended public comment period on the above permit applications, so that Chester County (and all southeast region) residents are able to fully understand and provide feedback on the issues that directly affects them regarding this pipeline project.

Sincerely

Terence Farrell
Chairman
