

Title Web Form Note

Ann  
fy1

**Good Afternoon Governor Wolf,**

**My name is Diane Smith and I reside in Middletown Township, Delaware County. I am a member of the Steering Committee for the Middletown Coalition for Community Safety. Perhaps you have heard about our group?**

**I am writing to you today because I am extremely concerned about the proposed Mariner East 2 high pressure NGL pipeline that is planned to be built in my community and will run dangerously close to my daughter's school, Glenwood Elementary. A mere 625 feet from her playground and approximately 800 feet from the nearest classroom. I am particularly concerned about what might happen in the event of a leak or explosion. The contents of this pipeline are colorless and odorless, yet they are highly toxic and capable of asphyxiation and combustion. These pipelines are known to leak. An explosion in our community would result in many casualties, including over 440 elementary students and their teachers, not to mention the many people who reside along the pipeline's proposed path. This is a very densely populated area. There is no clear notification or evacuation plan for this proposed pipeline. I also ask that the DEP open up another 60 day comment period once Sunoco completes the re-submission of their application which I understand to be November 7, 2016. Finally, I want you to know that it is imperative that you hold a private meeting with members of the Middletown Coalition for Community Safety so that you can get a better sense of our community's concerns. Please feel free to contact me directly to arrange a meeting.**

**Thank you,  
Diane Smith
