Title                      Web Form Note

**Governor Wolf,**

**My name is Diane Smith and I live in Middletown Township, Delaware County. Below is an email I sent to the DEP regarding Sunoco Logistics application for the Mariner East pipeline. I am sending to you as the DEP takes it direction from you. This is my second email to you about Mariner East. I respectfully request a response this time. The application deadline is tomorrow, December 7th. Please do the right thing and grant the citizens of the Commonwealth, your constituents, a chance to be heard.**

**I am writing in regards to the Chapter 102 and 105 permits for the Mariner East pipeline. This pipeline in is not in the best interests of the people of the Commonwealth or the environment and I ask that the DEP deny Sunoco's permits. Sunoco recently resubmitted their application after the DEP identified massive technical deficiencies. Given the significant changes, I also request that the DEP open an additional sixty-day comment period and hold new public hearings across the state. Delaware County, especially deserves a hearing. This 350 mile pipeline would impact communities, wetlands, and public lands in seventeen counties and the public deserves another opportunity to comment on this application. Thank you,  
Diane Smith
