

Title Web Form Note

Dear Governor Wolf,

It's time to stop investing in firms like Energy Transfer Partners that are creating tremendous environmental destruction and who have wrongly used violence against the Native American's who are protesting against the unlawful Dakota Access pipeline. What ETP has done to: a) condone violence against Native American protesters is totally wrong and b) we must stop contributing to the slow destruction of the planet.

One recent article about ETP states: "It turns out that one of the major investors in Energy Transfer Partners is...the Commonwealth of Pennsylvania. Records show that as of this June, the commonwealth -- through its pension funds -- owned some 5 million shares of ETP -- valued at some \$192 million. That's more than any other governmental or quasi-governmental agency. Other records show the bulk, if not all, of the investment is through the Pennsylvania Public Schools Retirement System, or PSERS, which has invested quite heavily in the energy sector (and not always for the greatest financial returns.) use you influence to start divesting funds that are . And it would be fantastic to see Pennsylvania school teachers and our government leader's leading the way on this."

I hope that you Gov. Wolf will be one of the leader's who cares about the very real environmental issues facing humanity and the future of our planet. I pray that you will make sure that alternative energy is where investment dollars will go to stop the devastation being wrought, especially, by those building the Dakota Access Pipeline.

Thank you for your time,
Rose Trefz
